# PowerSchool FAQ

Frequently Asked Questions

## **What is the PowerSchool Parent Portal?**

The Parent Portal offers parents and guardians real-time access to your child's grades and attendance. The Parent Portal is an easy to use communication tool that will allow you to take a more active role in your child's education.

## **What is required to connect to the Parent Portal?**

- A computer with a connection to the Internet
- An updated web browser (i.e: Internet Explorer, Netscape, Firefox, Mozilla, Safari)
- A user ID and password issued to you by the District. If you have more than one child, you will need a unique user ID and password for each child that is a BFA student.

## **What will PowerSchool allow me to see?**

You will be able to access grades, attendance, school bulletins and announcements.

## **What if I want others to have access to my child's grades (Grandparents, Aunt/Uncle)?**

If you want others to have access to your child's grades via the internet/PowerSchool, then you will need to simply provide them with the login & password that was provided to you in your letter. There will be one (1) login & one (1) password issued for each student. It will be the responsibility of each parent/guardian to distribute (or not distribute) this login/password as they see fit. We recommend that you keep this information confidential and use caution when sharing it.

## **Is my child's information secure?**

Absolutely. In fact, your child's safety and privacy are our greatest priorities. The Parent Portal is hosted through PowerSchool, our secure student information system. Your child's records can only be accessed by authorized school officials and those with whom you share your password.
